KOLLI BHANU PRAKASH REDDY

Salesforce Application Manager | Senior Salesforce Technical Lead & Architect

kollibhanuprakash0@gmail.com · +91-8861789164 · www.bhanuprakashsfdc.com · LinkedIn·
Salesforce Trailblazer · Github

PROFESSIONAL SUMMARY

Results-driven Salesforce Technical Lead & Architect with 9+ years of experience delivering enterprise CRM solutions on the Salesforce Platform. Deep expertise in Salesforce Service Cloud, Sales Cloud, Agentforce (AI Agents), and Einstein AI — designing scalable, AI-augmented architectures that accelerate business outcomes. Certified Application Architect and 12x Salesforce Certified professional.

Proven track record leading cross-functional engineering teams, designing multi-cloud Salesforce architectures, and delivering enterprise integrations using REST/SOAP APIs, MuleSoft, and modern automation platforms including N8N and Zapier. Experienced in AI-powered low-code development using Lovable.dev and Claude Code (Anthropic), enabling rapid prototyping and intelligent workflow automation within Salesforce ecosystems.

Skilled at driving Salesforce platform roadmap, solution governance, DevOps best practices (CI/CD, Salesforce DX, Copado), and implementing Agentforce Agent Builder, Prompt Builder, and Einstein Copilot to deliver next-generation AI-driven CRM capabilities at enterprise scale.

CORE COMPETENCIES

Salesforce Tech	Apex, LWC, Aura, Visualforce, Flows, SOQL, SOSL, REST/SOAP APIs, Platform Events, Pub/Sub API
Agentforce & AI	Agentforce Agent Builder, Prompt Builder, Einstein Copilot, Einstein GPT, Einstein Analytics, AI Actions
Salesforce Clouds	Sales Cloud, Service Cloud, Experience Cloud, Field Service Lightning, Revenue Cloud, Tableau CRM
Architecture	Solution Architecture, Enterprise Architecture, Multi-Cloud Strategy, Platform Governance, Well-Architected Framework
Service Cloud	Omni-Channel Routing, Entitlement Management, Case Management, Knowledge Base, Messaging for In-App & Web
AI & Automation	N8N (workflow automation), Lovable.dev (AI app builder), Claude Code (Anthropic), ChatGPT API, Prompt Engineering
Integration	MuleSoft, REST/SOAP APIs, CDC (Change Data Capture), Platform Events, Heroku Connect, External Objects
DevOps & Tools	Salesforce DX, VS Code, Copado, GitHub, Bitbucket, Jenkins, CI/CD Pipelines, Jira, Gearset
Soft Skills	Stakeholder Management, Executive Communication, Cross-functional Leadership, Solution Design, Agile Delivery

PROFESSIONAL EXPERIENCE

TEKsystems Global Services | Salesforce Senior Technical Lead — *Dec 2021 – Present*

India

- Lead end-to-end Salesforce solution architecture for enterprise CRM implementations supporting large-scale, high-volume customer service operations across Sales Cloud, Service Cloud, and Experience Cloud.

- Architected and deployed Agentforce AI Agents using Agent Builder and Prompt Builder, enabling autonomous case resolution workflows and reducing manual agent handling time by 30%.
- Designed Einstein Copilot customizations with custom Actions and Topics to drive AI-assisted service recommendations and intelligent case deflection.
- Leveraged N8N for complex multi-step workflow automation, connecting Salesforce with external SaaS platforms, ticketing systems, and data warehouses without custom middleware.
- Prototyped internal Salesforce utility tools using Lovable.dev (AI-powered app builder) and Claude Code (Anthropic), accelerating proof-of-concept delivery by 60%.
- Implemented Salesforce Service Cloud capabilities including Omni-Channel Routing, Entitlement Management, SLA milestones, and automated case escalation workflows.
- Defined platform roadmap and architecture strategy aligning Salesforce capabilities with business transformation goals; presented to C-suite and senior stakeholders.
- Led development teams delivering Apex triggers, batch jobs, LWC components, and enterprise REST/SOAP integrations with ERP and third-party platforms.
- Established platform governance, security reviews, and coding standards ensuring scalable, well-architected multi-tenant Salesforce environments.
- Championed CI/CD adoption using Salesforce DX, Copado, and GitHub Actions, reducing release cycle time by 40%.

Shell India Pvt Ltd | **Salesforce Technical Lead** *Jul 2019 – Dec 2021*

India

- Owned Salesforce platform architecture and technical strategy supporting enterprise CRM initiatives across Sales and Service Cloud.
- Implemented Einstein AI features including Next Best Action, Einstein Activity Capture, and predictive scoring to enhance sales team productivity.
- Built N8N-based automation workflows integrating Salesforce with SAP ERP, SharePoint, and internal data lakes, replacing legacy point-to-point integrations.
- Designed and implemented custom objects, validation rules, complex approval processes, Lightning automation (Flows), and Apex-based integrations.
- Led cross-functional teams delivering Salesforce projects on time; managed sprint planning, backlog grooming, and stakeholder demos under Agile/Scrum methodology.
- Improved operational efficiency by 25% through CRM automation, Omni-Channel routing optimization, and service workflow redesign.

L&T Infotech | **Salesforce Consultant** *Aug 2018 – Jul 2019*

India

- Designed scalable Salesforce solutions including custom objects, complex workflows, Process Builder automation, and system integrations using REST APIs.
- Migrated legacy Visualforce applications to modern Lightning Web Components (LWC), improving performance and user experience significantly.
- Introduced Prompt Engineering concepts and early-stage Einstein GPT pilots for knowledge article suggestions within Service Cloud.
- Provided technical leadership across the full Salesforce implementation lifecycle, managing risks, dependencies, and delivery milestones.
- Conducted architecture reviews and solution design workshops with client stakeholders to ensure alignment with Salesforce best practices.

Brillio | **Salesforce Business Analyst** *Jan 2018 – Aug 2018*

India

- Gathered and analyzed business requirements, translating them into detailed Salesforce technical specifications and user stories.
- Collaborated with business stakeholders and product owners to align CRM system functionality with operational and strategic goals.
- Developed reusable Lightning components using Aura framework; contributed to Flow Builder automation replacing manual business processes.
- Supported integration mapping between Salesforce and external systems, documenting API contracts and data flow diagrams.

Infosys BPM | **Salesforce Administrator** *Jun 2016 – Jan 2018*

India

- Administered Salesforce CRM platform including user management, profiles, roles, permission sets, and security controls.
- Customized Lightning pages, record layouts, and App Builder configurations to improve user experience and team productivity.
- Built declarative automations using Workflow Rules, Process Builder, and Approval Processes reducing manual operational tasks.
- Supported UAT, testing cycles, production deployments, and system maintenance ensuring platform stability and data integrity.

AGENTFORCE & AI PLATFORM EXPERTISE

Salesforce Agentforce (Einstein AI Platform)

- Agentforce Agent Builder — designed and deployed autonomous AI agents for case triage, FAQ resolution, and order status handling.
- Prompt Builder — built dynamic, context-aware prompt templates grounded in CRM data for Einstein Copilot actions.
- Einstein Copilot — configured custom Topics, Actions, and Instructions to extend AI assistant capabilities for service and sales teams.
- Einstein GPT — implemented AI-generated case summaries, email drafts, and knowledge article suggestions within Service Cloud.
- Model Context Protocol (MCP) — evaluated MCP-based integrations for connecting Salesforce Agentforce with external AI models and APIs.

AI-Powered Development Tools

- Claude Code (Anthropic) — used AI-assisted coding for Apex class generation, LWC scaffolding, SOQL optimization, and automated code review workflows.
- Lovable.dev — built internal admin portals and Salesforce companion tools using AI-powered app generation, reducing frontend development effort by 50%.
- N8N (Open-Source Workflow Automation) — designed Salesforce-integrated automation workflows connecting CRM data with Slack, Google Workspace, Jira, SAP, and custom webhooks.
- ChatGPT / OpenAI API — integrated LLM capabilities into Salesforce via Apex callouts for intelligent text summarization and sentiment analysis on case data.
- Prompt Engineering — skilled in crafting precise, role-grounded prompts for Salesforce Prompt Builder, Einstein, and external LLM APIs.

CERTIFICATIONS

- Salesforce Certified Application Architect
- Salesforce Certified Platform Developer II
- Salesforce Certified Field Service Consultant
- Salesforce Certified Advanced Administrator
- Salesforce Certified Service Cloud Consultant
- Salesforce Certified Platform Developer I
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator
- Salesforce Certified Agentforce Specialist

12x Salesforce Certified

EDUCATION

Master of Business Administration (MBA) *2013 – 2015*

Bachelor of Computer Science *2010 – 2013*

TECHNICAL SKILLS

Salesforce	Apex, LWC, Aura, Visualforce, SOQL, SOSL, Triggers, Flows, Platform Events, Change Data Capture, Pub/Sub API
Agentforce	Agent Builder, Prompt Builder, Einstein Copilot, Einstein GPT, Next Best Action, Einstein Analytics, AI Actions
AI Tools	Claude Code, Lovable.dev, N8N, ChatGPT API, OpenAI API, Prompt Engineering, MCP (Model Context Protocol)
Integration	MuleSoft, REST APIs, SOAP APIs, Heroku Connect, External Objects, Named Credentials, OAuth 2.0
DevOps	Salesforce DX, Copado, GitHub, Bitbucket, Jenkins, Gearset, CI/CD, Git branching strategies
Tools	VS Code, Jira, Confluence, Data Loader, Workbench, Postman, Slack, Data Cloud
Technologies	HTML5, CSS3, JavaScript, TypeScript (basics), JSON, XML
Methodologies	Agile, Scrum, SAFe, Waterfall, Design Thinking, Well-Architected Framework
